

Model:  
**M1X-78 "Stealth Fury"**

Length: 12,6 meters  
Diameter: 1,2 meters  
Weight: Classified

Warhead:  
Advanced multi-purpose explosive payload

Guidance System:  
AI-assisted dual-mode (GPS/Inertial Navigation)

Speed: Mach 5+  
Fuel Consumption: 1,6 kg / km  
Accuracy: Sub-meter precision  
Operational Altitude: Variable

Stealth Technology:  
Radar cross-section reduction coating  
Launch Platform:  
Ground-based launchers and aircraft

Countermeasures: Electronic counter-countermeasures (ECCM)  
Mission Profiles: Strategic strikes, precision targeting  
Deployment: Rapid response capability, adaptable to various operational scenarios  
Additional Features: Real-time trajectory planning, encrypted communication link
